## Summer Camps

### Summer 2020 Covid-19 Protocols and Key Information

Based on state and local guidelines, Sweetlines summer camp programs will operate a bit differently this season. Continued policies and procedures will be in place. As local guidelines on social distancing, gathering size limits and youth activities change, our camp rules and regulations will change accordingly. While this summer will be run differently than our traditional camp season, our goal is to provide a fun, skill-building experience for each child that improves their confidence and instills a passion for an active lifestyle. More than ever, safety is our top priority this summer! The Sweetlines team will strive to make the best decisions based on the unique conditions and guidelines for the community we serve.

## Key Information for Parents/Guardians

- If your child is sick, please stay home
- Please check your child's temperature everyday before coming to camp. Be prepared to give the temperature to your kid's coach

We ask that all children stay at home and away from others if they have: a temperature of 100.4°F or higher, a cough, shortness of breath or difficulty breathing, chills, repeated shaking with chills, muscle pain, headache, sore throat, new loss of taste or smell, or other signs of new illness unrelated to a preexisting condition (such as seasonal allergies). If your child has a suspected or confirmed case of COVID-19, refer to Public Health's Guidance for Child Care Administrators.

- Parents, guardians, and riders must arrive wearing a mask for drop-off and pick-up time.

Riders will be given a Sweetlines maska (neck gaiter) on the first day of camp!

- Please be courteous to others by being efficient during pick-up/drop-off to allow people to stay spread out and keep the group size to a minimum. We will do a verbal, no contact pick-up/drop-off this year.
- We can't drive in bags this year. Riders must carry in their own water and lunches into the park. This means riders must come to camp with a backpack/bag that can be ridden with.
- Bikes must be checked by a shop or competent mechanic before coming to camp.
- Riders must have their own helmet, knee pads, full finger gloves, and elbow pads. No loaners will be provided. Contact Kat if you would like financial assistance.
- We suggest that the same parent or guardian does the drop-off and pick-up each day.
- Please pack plenty of food to fuel your child when at camp and using a lot of energy.

Key information for parents/guardians continued on the next page

- Name tape must be on the front of the helmets and on the handlebars of the bikes before coming to camp (painters tape works best, written with a sharpie).
- Riders must have hand sanitizer and hand wipes. We will have extra. Duthie does not have running water or a toilet. Students will be using outhouses that are cleaned every 2 days.
- Please send them with a game, book, or art supplies for lunchtime.

## **Important information for parents/guardians to share with your kid**

- The additional rules are put in place to keep you safe and allow camp to happen.
- You'll be given your own personal zone to keep all your belongings separate from other belongings.
- Stay with your given group. You will do everything with your group and only your group.
- Clean your hands regularly and when asked to do so.
- Minimize touching your own face.
- High fives, fist bumps, hugs and other peer-to-peer/coach-to-peer contact is not allowed.
- Lunch will be with just your group. Like normal, no food sharing.
- We must be respectful to everyone around us. This means giving others at least six feet of space and being extra patient

## **General Changes to Sweetlines Protocol**

- Sweetlines will closely monitor CDC guidelines related to youth sports and camp-related policies as well as review state and local protocols and regulations to ensure compliance before determining whether or not to conduct in-person camps.
- Sweetlines riding groups will be smaller, no more than five riders per group.
- Sweetlines staff, riders, and any family members must not be or have been sick within the past 14-days.
- All equipment will be sanitized after each camp session and during sessions as needed.
- Additional staff training in relation to COVID-19 has been implemented.
- Additional Personal protective equipment has been purchased.
- Every aspect of a Sweetlines camp has been scrutinized and adapted when necessary to adhere to state and local guidelines while still providing an excellent camp experience.
